BOUT CFC CONDUIT FOR COMMERCE

Conduit is working to unleash individual economic freedom and prosperity.

While big businesses have their interests voiced by lobbyists and controlled organizations, small businesses often do not have adequate advocates, yet have the most to lose with bad government policy.

By working to measurably reduce the size and scope of government in Arkansas, Conduit is working to unleash individual economic freedom and prosperity. Arkansas based and focused. Conduit depends on readers like you.

CONDUIT IS MADE UP OF A COLLECTION OF ENTITIES WHICH HOLD DIFFERENT ROLES IN THE SHARED MISSION FOR PROSPERITY FOR ALL ARKANSANS.

CONDUIT FOR COMMERCE

Conduit for Commerce, Inc. is a 501(c)(3) non-profit which focuses on the development of sound policy and tracks the Arkansas state legislature's voting records.

CONDUIT FOR ACTION

Conduit for Action, Inc. is a 501(c)(4) nonprofit which engages in lobbying and issue advocacy online and at the Arkansas capitol.

ARKANSAS ECONOMIC DEFENSE FUND

Arkansas Economic Defense Fund, Inc. is a 501(c)(3) nonprofit committed to addressing legal challenges that infringe upon the economic rights of the people of Arkansas.

ECONOMIC FREEDOM

\star

WHAT IS IT?

"Economic freedom the fundamental right of every human to control his or her own labor and property. In an economically free society, individuals are free to work, produce, consume, and invest in any way they please. In free economically societies. governments allow labor, capital, and goods to move freely, and refrain from coercion or constraint of liberty beyond the extent necessary to protect and maintain liberty itself."

WHY DOES IT MATTER?

"... If we want to pass on to our children and grandchildren a nation [state] that is at least as free and prosperous as the one we inherited, we must focus our efforts on turning ordinary people away from the false promises of bigger government and sweeping economic programs while turning the rest of the world away from the CCP."

Heritage Foundation: Index of Economic Freedom / (31st Edition)

How we score the legislators:

CFC uses the Economic Freedom Filter to determine whether legislation protects or harms economic freedom in Arkansas. The Economic Freedom Filter analyzes bills that do the following:

Does it grow government?
Increase dependency?
Spend money we don't have?
Reduce transparency?

If legislation falls into those categories, it is considered for scoring. Legislators are scored strictly on how they vote. Bigger-impact bills carry more weight, and missed votes count against unless properly paired.

SUMMARY

In the seven publications of the CFC Arkansas Legislative Biennial Scorecard, we have learned much about our state, the legislature, and our governors—especially as it concerns Economic Freedom in Arkansas.

The consistent lesson for the voter is that bills filed, votes made, and bills passed during legislative sessions give us a true measure of the underlying philosophies and principles held by individual legislators as well as governors.

Past Arkansas legislative sessions measure a dismal commitment by Republican office holders to Economic Freedom. And as observed in this 2025 CFC Scorecard, our elected officials are continuing to move us toward more government dependency and less personal freedom.... study this trend with us:

2013: R=Senate-60% and House-51%. Arkansas' response in 2012 to the policies of Obama (winning only 36% of the vote) was the election of the first majority Republican State House and State Senate since the end of Reconstruction.

- Despite their campaign promises, the 2013 Republican majority passed into law the Democrat Governor Mike Beebe's coveted Obamacare Medicaid Expansion. Giving insurance companies a 20% first bite of the taxpayers' dollars and growing Arkansas's government by 20% in a single year, the legislature indulged their Republican voters by naming this scam the "Private Option."
 - Even after a few name changes, Arkansas's scam version of Medicaid Expansion is alive and well.
- Equal to the Private Option scam, the 2013 General Assembly (GA) passed HJR 1009, sponsored by ex-Republican Sen.
 Jon Woods (now serving 18 years in prison for political corruption) with only seven total "nays." Written at a 16-20 grade reading level, the unsuspecting 2014 Arkansas voter approved this deceptive amendment titled "...Elected Officials Ethics, Transparency, and Financial Reform...and Term Limits." In real life, this amendment more than doubled legislative terms and more than tripled legislative salaries.

2015: R=Senate-69% and House-64%. Hope against hope, in 2014, Arkansans attempted to eliminate Obamacare by voting into office even more Republicans. As a was the newly elected Republican governor.

- The first bills filed by Asa's nephew, Sen. Jim Hendren, the Senate's President Pro Temp, and passed by the Republican legislature accomplished the opposite of their campaign promises. These laws expanded the Private Option and eliminated the capital gains tax cut previously passed by Beebe in the session before—effectively becoming the first of Asa's tax increases.
- The next big disappointment for fiscal conservatives was the passage of SJR 16, again sponsored by ex-Sen. Jon Woods. In the name of "Economic Development," this joint resolution removed the five percent (5%) cap on the issuance of state bonds (debt). The amendment allowed all levels of government, and even the Chamber of Commerce, to issue bonds. In 2016, the voters passed Issue 3, advertised as the "Job's Amendment."

(SUMMARY CONTINUED)

2017: R=Senate-74% and House-73%. Although, according to BLR, this Regular Session increased taxes more than it cut, the Legislature was successful in playing some defense.

- The first attempt to pass the Internet Sales Tax (SB140) was defeated along with gas hike proposals in HB1726/1727. Also, a FOIA exemption for government attorneys (SB373) was defeated along with a refundable "earned income tax credit" (HB1161).
- This GA passed a joint resolution for tort reform, placing a cap on damages among other things. It was later removed from the ballot by the Arkansas Supreme Court.
- However, like years before, government spending increased greater than the rate of inflation. See our article, <u>Platform Republicans</u> <u>Fought Back During Legislative Session.</u>

2019: R=Senate-74% and House-74%. This GA was obsessed with Tax Reform, with Asa having previously appointed a year-long Tax Task Force to do the job in place of permanent legislative committees. And with several legislators going to prison for political corruption just prior to this session, Sen. Jim Hendren gave lip service to ethics reform, as well.

This session finally passed the *Internet Sales Tax*, the biggest tax hike on record for state and local governments. These tax revenues
are so large that DFA is unable (or refuses) to account for the totals, so they say, but DFA did report that the revenues were double
what was predicted. Among others, the GA also passed tax increases on gasoline and diesel. For a good summary of the 2019 Tax
Increasing Session, see *Raised Our Taxes But Tithe Back Some*, and other 2019 Conduit articles.

2021: R=Senate-80% and House-78%. In the throes of a pandemic and in hope of regaining our freedoms, in 2020, Arkansas voters continued to add to the Republican majorities in the state House and Senate.

- There was much talk this session about restricting the governor's powers using Executive Orders.
- When referring to "medical freedom" held by individuals, unlike Florida, no such bills became law.
- There was a bill passed that prevented government employers from mandating vaccines for a term. No such bill was passed to extend this vaccine exemption to private employees.
- Thankfully, a bill was passed that prevented nursing homes from isolating a dying patient from their family.

2023: R=Senate-83% and House-82%. After most R's considered the 2020 Presidential election stolen and dismal policies under President Biden, Arkansas continued to add to its huge Republican Legislative majority.

- With a new governor, Arkansas finally got real School Choice!
- Another attempt at limiting FOIA was made by the governor, but was mostly deflected by the GA.
- During two Special Sessions in 2021 and late 2022, Asa cut tax rates from 5.9% to 4.9% for individuals and corporate rates from 6.2% to 5.3%.
 - Even though the new governor, Sarah Huckabee Sanders, campaigned on eliminating the income tax, she did work during the 2023 GA Regular Session and helped cut rates for individuals and trusts from 4.9% to 4.7% and reduced corporations to 5.1%. (In June 2024, SHS signed measures which reduced the individual tax rate from 4.4% to 3.9%.)
- With most of the pandemic behind us, still, no Medical Freedom bills were passed.

<u>2025:</u> R=Senate-83% and House-81%. After a ten-year run of increasing their numbers each election cycle, in 2024 the Republican majority did not continue to increase but was reduced by one House seat. However, this loss did not appear to have restrained spending but set the stage for more government growth and a greater loss of personal freedoms for Arkansans.

- Economic Development—code word for "picking winners and losers with your tax dollars" ruled the day this Legislative Session.
- Reduction of transparency followed these Economic Development bills, causing the reporting of the actions by those receiving tax dollars under the guise of Economic Development to be greatly reduced.
- This 2025 scored 100 bills related to Economic Freedom. Some we supported. And some, we opposed. Review this
 Scorecard carefully to determine the underlying philosophies and principles of your own elected representatives. YOU
 CAN AND SHOULD MAKE A DIFFERENCE IN YOUR OWN FUTURE. KNOWLEDGE HELPS.

TOP WEIGHTED BILL SUMMARIES

Creation of Socialism - Corporate Welfare Districts

WEIGHT: 3

When you see the words "economic development" used in legislation, brace for a tax increase. At a time when the rest of the country is moving away from socialism, this amendment would increase Arkansas's current welfare state by creating corporate welfare districts, taking taxpayer money, and redistributing it to government favorites. Not only is the government acting in the place of a friendly bank to corporate welfare friends, but this amendment hands out permanent status to their chosen tax-exempt participants! This practice has continued to be tried and failed in Arkansas and continues to be ripe with corruption. Previously, the legislature created this same framework with "general improvement districts." In that scenario, legislators picked which special groups or projects they would direct taxpayer money. Former state legislators still sit in prison today for their abuse of that program. Passage of this amendment would lead to tax increases, more corruption, growing government, and a socialistcorporate welfare program with no limits or guardrails. DOGE to the rescue?

New Government Program to Subsidize Certain People

WEIGHT: 3

This bad bill provides a means by which up to \$500,000 per year of Arkansas tax dollars may be given to entities that will attempt to recruit people to move to Arkansas (who supposedly already have a job). This new government giveaway of tax dollars seems to be in line with many new socialist ideas from this General Session. We repeat: the waste, fraud, and abuse exposed by DOGE at the federal level only seems to have given many the idea that they need in on the money grab of government dollars. The government calls these programs "economic development," but will only serve to spend money we do not have, increase dependency on government, and increase the size and scope of government. This is another bad bill disguised as "economic development," but it is simply an economic welfare program.

OPPOSE

Prohibition on Ranked Choice Voting

WEIGHT: 3

This bill would prohibit ranked choice voting for any government-elected positions in Arkansas. Ranked choice voting is often used by big government politicians to ensure the establishment candidate wins—by allowing second and third-choice votes from other establishment candidates to count against non-establishment options. It's been used to block conservative candidates in places like Alaska and Maine.

ECONOMIC FREEDOM VS BIG GOVERNMENT BY RICHARD W. RAHN, CATO INSTITUTE

1. Does it grow government?

CATEGORY: SIZE AND SCOPE OF GOVERNMENT

Conduit scored 37 bills that either increase or decrease the size & scope of government. Below are seven of 10 of those bills subdivided into "Economic Development". This shows a clear focus by the 95th Legislative General Assembly to grow government and reduce Economic Freedom!

ECONOMIC FREEDOM BY ROBERT A. LAWSON

2. Does it increase dependency on government?

KEY BILL SUMMARIES CATEGORY: DEPENDENCY ON GOVERNMENT

The measure of Economic Freedom in Arkansas is directly related to how much government reduces personal liberties. Thirty-six bills were scored by Conduit that either increase or decrease dependency on government. Those 36 scored bills were then divided into four subcategories: Property Rights (6); Personal Freedom (7); Ballot Issues (11); and Licensing (12). Below are five of the six scored bills related to private Property Rights.

Bill Number	Sub Category	Bill Sponsor	Status	Conduit Bill Title / Description	Conduit Position	Weight
HB1049	Private Property	Tosh/Caldwell	Act 238 of 2025	Criminalizing Unlawful Squatting	SUPPORT	1

"When government - in pursuit of good intentions - tries to rearrange the economy, legislate morality, or help special interests, the cost come in inefficiency, lack of motivation, and loss of freedom. Government should be a referee, not an active player." — Milton Friedman

KEY BILL SUMMARIES CATEGORY: DEPENDENCY ON GOVERNMENT

Of the 36 bills scored for impact on government dependency, Conduit supported just 1 of 7 under "Personal Freedom"—the rest reduced Arkansans' freedoms. Two "Ballot Issue" and two "Licensing" bills were also included, but "Personal Freedom" remains the biggest concern.

Bill Number	Sub Category	Bill Sponsor	Status	Conduit Bill Title / Description	Conduit Position	Weight
SB2	Personal Freedom	C. Penzo /Duffield	Died in House Committee	To Repeal the Statewide Fluoridation Program & to Remove the Mandate for Water Systems to Maintain a Fluoride Content	SUPPORT	3

Guided by lobbyists and special interests, the people who write these spending bills consistently try to trick the public, loading them with "budget gimmicks" and giving them flowery names, which in many cases are the exact opposite of what the bill will actually achieve in the real world.

3. Does it spend money we do not have?

KEY BILL SUMMARIES CATEGORY: SPENDING MONEY

We don't have a revenue problem, we have a spending problem! The bad bills in this category are basically "A TAX INCREASE!" Nine bills were scored by Conduit that either spend money we don't have or reduce spending by cutting taxes. Here are four representative bills of those nine. Only one of three bills supported here became law.

4. Does it decrease transparency?

CATEGORY: TRANSPARENCY IN GOVERNMENT

Conduit supported 11 of the 18 "Transparency" bills we scored - eight are listed below. Four of the bills we opposed that became law relate to "Economic Development." Ask your legislator why the 95th General Assembly chose to exempt Economic Development Authorities from transparency while significantly increasing their funding.

Bill Number	Sub Category	Bill Sponsor	Status	Conduit Bill Title / Description	Conduit Position	Weight
HB1797	Economic Development	Beaty Jr. / Gilmore	Act 944 of 2025	Removal of Transparency and Oversight in Arkansas Development Finance Authority	OPPOSE	2
SB382	Economic Development	Crowell/ Cavenaugh	Act 466 of 2025	Repeal of Transparency in Arkansas Development Finance Authority Capital Access Fund	OPPOSE	2
SB384	Economic Development	Crowell/ Cavenaugh	Act 468 of 2025	Repeal of Transparency in Arkansas Development Finance Authority Bond Issues	OPPOSE	2
SB388	Economic Development	Crowell/ Cavenaugh	Act 447 of 2025	Repeal on Reporting Foreign Government Economic Development Offices	OPPOSE	2
SB307	Utilities	Dismang/ Eaves	Act 373 of 2025	To Amend the Law Concerning Public Utilities; To Create the Generating Arkansas Jobs Act of 2025; and to Declare an Emergency	OPPOSE	1
SB410	Public Office -Employees	B. King	Died on Senate Calendar	Transparency in Former Government Employees and Politicians Future Government Benefiting Employment	SUPPORT	1
SB562	DOT	Hill/Holcomb	Act 704 of 2025	Repeal of Internal Audit's Authority to Review Efficiency of the Dept of Transportation	OPPOSE	2
SB565	Procurement	Flippo/Maddox	Act 936 of 2025	Increased Oversight over Procurement of Government Contracts	SUPPORT	1

THEIR VOTES>>>

Freedom

The Economic Freedom Filter serves as the criteria used by CFC and CFA to assess whether a bill positively or negatively impacts economic freedom for the people of Arkansas. This filter evaluates bills based on the following:

Does it increase (decrease) the size & scope of **Government?**

Does it increase (decrease) dependency on Government?

Does it spend money we do not have?

Does it decrease (increase) transparency in Government?

The Conduit for Commerce (CFC) Legislative Scorecard is a resource for Arkansans to learn how their state legislators voted during the 2025 Regular Session of the 95th General Assembly and to use to compare those votes to the mission of Conduit: more economic freedom for all Arkansans. During the session, proposed legislation is reviewed and analyzed by Conduit Action, Inc., sister for organization to CFC, resulting in written recommendations. Based on those recommendations. CFC has drafted this legislative scorecard. Bills are included in the scorecard by using the CFC Economic Freedom Filter. The scores are based entirely on each legislator's own voting record on bills scored.

If legislation falls into one of these four categories, it is considered for scoring. CFC will support bills that

decrease the size and scope of government, decrease dependency on government, saves money, or increases transparency in government. CFC will oppose bills that increase the size and scope of government, increase dependency on government, spend money the state does not have, or decrease transparency in government.

OUR METHODOLOGY

Conduit for Action assigns a value (between 1-3) to legislative bills based on their economic impact. The larger the impact, the higher the assigned value. Each legislator's individual score (percentage) is based solely on a legislator's own voting record.

Legislators gain points if they voted with the recommended position of Conduit for Action. For example, if a bill received a weight of two and CFA's position was "Support," then a legislator received no points if they voted "Nay" (against the bill). If a bill received a weight of two and CFA's position was "Oppose," then a legislator received two points if they voted "Nay." Each legislator's total points were then divided by the total possible points to determine their final percentage score.

MISSED VOTES

Legislators are afforded the opportunity to "pair" their votes when they are absent, ensuring a vote opportunity of "Yea" or "Nay" on every bill. If a legislator was not in the chamber when a vote is held, and they did not pair their vote or did not have a person vote their voting machine for them, or they voted "present," then they are recorded as a missed vote.

This is the third year missed votes on this scorecard were considered as voting against our position. We feel it is important legislators vote a "yea" or "nay."

No committee votes were considered for scoring.
